## INTERNATIONAL SEARCH REPORT

In dienal Application No
PCT/GB2004/001393

a. classification of subject matter IPC 7 A4701/02								
According to International Patent Classification (IPC) or to both national classification and IPC								
B. FIELDS SEARCHED  Minimum documentation searched (classification system followed by classification symbols)  IPC 7 A47D A47C								
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched								
Electronic data base consulted during the International search (name of data base and, where practical, search terms used)								
EPO-Int	ernal, WPI Data							
C. DOCUMENTS CONSIDERED TO BE RELEVANT  Relevant to claim No.								
Category °	Citation of document, with indication, where appropriate, of the relevant	int passages						
A	US 5 927 805 A (BETKER MARK A ET 27 July 1999 (1999-07-27) abstract column 2, line 35 - line 37	AL)	1,2					
A	US 5 468 043 A (CHIEN JUI-LUNG) 21 November 1995 (1995-11-21) abstract		1					
A	US 6 089 666 A (ROSKO M SCOT) 18 July 2000 (2000-07-18) figure 1 column 3, line 62 - line 66		1					
Fu	orther documents are listed in the continuation of box C.	Patent family members are listed	i in annex.					
<ul> <li>Special categories of cited documents:</li> <li>"A" document defining the general state of the art which is not considered to be of particular relevance</li> <li>"E" earlier document but published on or after the international filing date</li> <li>"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)</li> <li>"O" document referring to an oral disclosure, use, exhibition or other means</li> <li>"P" document published prior to the international filing date but later than the priority date claimed</li> <li>"T" later document published after the international filing date or priority date and not in conflict with the application but clied to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to extend to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to extend to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the principle or theory underlying the cited to understand the prin</li></ul>								
	he actual completion of the international search	Date of mailing of the international search report						
29 July 2004		04/08/2004						
Name and mailing address of the ISA  European Patent Office, P.B. 5818 Patentiaan 2  NL - 2280 HV Rijswijk  Tel. (+31-70) 340-2040, Tx. 31 651 epo ni,  Fax: (+31-70) 340-3018		Authorized officer Alff, R
